

Marc Vidal Puig

Senior Backend Engineer

Barcelona, Spain
c001.958@example.test
+00 000 386 951

PROFILE

Senior Backend Engineer with 7 years of experience designing and scaling server-side systems using Python and PostgreSQL. Skilled in building containerized microservices, optimizing database performance, and leading small engineering teams within agile environments. Passionate about clean architecture and reliable, maintainable code.

SKILLS

Python · PostgreSQL · Docker · Django · FastAPI · Kubernetes · Redis · REST APIs · Git · Linux · CI/CD

WORK EXPERIENCE

Senior Backend Engineer — NubaTech Solutions

Barcelona, Spain | 2021-Present

- # Design and maintain scalable backend services using Python and FastAPI
- # Lead database schema design and optimization for PostgreSQL clusters
- # Mentor junior engineers and conduct code reviews
- # Coordinate containerized deployments using Docker and Kubernetes
- # Collaborate with product teams to define API contracts

Technologies: Python, FastAPI, PostgreSQL, Docker, Kubernetes, Redis

Backend Engineer — Barcode Systems

Barcelona, Spain | 2019-2021

- # Developed RESTful APIs using Django and Django REST Framework
- # Implemented CI/CD pipelines for automated testing and deployment
- # Optimized SQL queries and database indexes for performance
- # Containerized services using Docker for consistent environments

Technologies: Python, Django, PostgreSQL, Docker, Jenkins

Junior Backend Developer — Iberic Data Labs

Barcelona, Spain | 2017-2019

- # Built internal tools and APIs using Python and Flask
- # Assisted in migrating legacy MySQL databases to PostgreSQL
- # Wrote unit tests and participated in agile sprint ceremonies

Technologies: Python, Flask, PostgreSQL, MySQL, Git

EDUCATION

Bachelor's Degree in Computer Science

Universitat Politècnica de Catalunya (UPC) — 2017
