

Marc Oliveras Puig

AI / ML Engineer specializing in LLM-based Applications

Barcelona, Spain
c002.206@example.test
+00 000 450 719

PROFILE

AI/ML Engineer with 4 years of experience building and deploying machine learning and generative AI solutions. Skilled in designing LLM-powered agent workflows using LangChain and LangGraph, and deploying scalable pipelines on GCP. Strong background in Python-based model development, data engineering, and MLOps practices.

SKILLS

Python · LangChain · LangGraph · GCP · TensorFlow · Docker · SQL · Vertex AI · REST APIs · MLOps · Kubernetes

WORK EXPERIENCE

Machine Learning Engineer — NimbusData Solutions

Barcelona, Spain | 2022-Present

- # Design and deploy LLM-based agent workflows using LangChain and LangGraph for internal automation tools
- # Build and maintain ML pipelines on GCP using Vertex AI and Cloud Functions
- # Collaborate with product teams to integrate generative AI features into customer-facing applications
- # Monitor model performance and implement retraining pipelines
- # Containerize services with Docker and manage deployments via Kubernetes

Technologies: Python, LangChain, LangGraph, GCP, Vertex AI, Docker, Kubernetes

Junior Data Scientist — Cortex Analytics

Barcelona, Spain | 2020-2022

- # Developed predictive models for customer churn using Python and scikit-learn
- # Built ETL pipelines to process structured and unstructured data from multiple sources
- # Assisted senior engineers in deploying models to production using GCP services
- # Created dashboards and reports to communicate model insights to stakeholders

Technologies: Python, scikit-learn, SQL, GCP, BigQuery

EDUCATION

Bachelor's Degree in Computer Science

Universitat Politècnica de Catalunya (UPC) — 2020
