+00 000 526 282

PROFILE

Senior Data Scientist with 8 years of experience designing and deploying machine learning solutions across finance and retail sectors. Skilled in building end-to-end ML pipelines, from data engineering to production deployment, with a strong focus on delivering measurable business impact.

SKILLS

Python · Machine Learning · SQL · Deep Learning · Scikit-learn · TensorFlow · Data Visualization · Docker · AWS · Statistical Modeling

WORK EXPERIENCE

Senior Data Scientist — Veridata Solutions

Madrid, Spain | 2021-Present

- # Lead development of predictive models for customer churn and demand forecasting
- # Design and maintain ML pipelines using Python and SQL for data extraction and transformation
- # Mentor junior data scientists on best practices in model development and evaluation
- # Collaborate with engineering teams to deploy models into production environments
- # Present analytical findings to stakeholders to support strategic decision-making

Technologies: Python, SQL, Scikit-learn, TensorFlow, Docker, AWS

Data Scientist — NovaBank Analytics

Madrid, Spain | 2018-2021

- # Developed credit risk scoring models using machine learning techniques
- # Built automated ETL processes to consolidate data from multiple banking systems
- # Conducted exploratory data analysis to identify trends in customer behavior
- # Optimized SQL queries for large-scale financial datasets

Technologies: Python, SQL, Pandas, Scikit-learn, Tableau

Junior Data Analyst — Insightia Consulting

Madrid, Spain | 2016-2018

- # Assisted in building dashboards for client reporting using SQL and visualization tools
- # Cleaned and preprocessed datasets for analytical projects
- # Supported senior analysts in statistical analysis and reporting

Technologies: SQL, Excel, Python, Power BI

EDUCATION

Master's Degree in Data Science and Artificial Intelligence

Universidad Politécnica de Madrid — 2016
