PROFILE

Junior Frontend Engineer with 2 years of experience building responsive web applications using React and TypeScript. Focused on writing clean, maintainable code and collaborating closely with design and backend teams to deliver user-friendly interfaces.

SKILLS

React · TypeScript · Vite · JavaScript (ES6+) · HTML5 · CSS3 · Redux · Git · REST APIs · Jest

WORK EXPERIENCE

Junior Frontend Developer — Nortech Digital

Lisbon, Portugal | 2023-Present

- # Develop and maintain UI components using React and TypeScript
- # Migrated legacy build tooling to Vite to improve development speed
- # Collaborate with UX designers to implement responsive layouts
- # Write unit tests with Jest to ensure component reliability
- # Participate in code reviews and daily stand-ups

Technologies: React, TypeScript, Vite, Redux, Jest, CSS3

Frontend Developer Intern — Lumen Softworks

Lisbon, Portugal | 2022-2023

- # Assisted in building landing pages using React and JavaScript
- # Fixed bugs and improved cross-browser compatibility
- # Worked with senior developers to integrate REST APIs
- # Contributed to internal component library documentation

Technologies: React, JavaScript, HTML5, CSS3, REST APIs

EDUCATION
