

Markus Reinhardt

Lead Backend Engineer

Berlin, Germany
c006.610@example.test
+00 000 987 812

PROFILE

Backend engineering leader with 11 years of experience designing and scaling distributed systems in cloud-native environments. Skilled in leading cross-functional teams, driving Kubernetes-based infrastructure adoption, and delivering resilient Java-based microservices on AWS. Passionate about mentoring engineers and improving system reliability.

SKILLS

Java · Kubernetes · AWS · Spring Boot · Microservices · Terraform · PostgreSQL · CI/CD · Docker · System Design · Kafka

WORK EXPERIENCE

Lead Backend Engineer — Nordhaven Systems

Berlin, Germany | 2020-Present

- # Lead a team of 8 backend engineers building microservices for a logistics platform
- # Define technical architecture and roadmap for backend systems on AWS
- # Drive adoption of Kubernetes for container orchestration across services
- # Mentor engineers through code reviews and technical design discussions
- # Collaborate with product and infrastructure teams to plan scalable solutions

Technologies: Java, Spring Boot, Kubernetes, AWS, Kafka, PostgreSQL

Senior Backend Engineer — Bergfeld Digital

Berlin, Germany | 2017-2020

- # Designed and implemented RESTful APIs for e-commerce backend services
- # Migrated monolithic application to microservices architecture
- # Set up CI/CD pipelines to automate testing and deployment
- # Optimized database queries improving response times for high-traffic endpoints

Technologies: Java, Docker, AWS, MySQL, Jenkins

Backend Developer — Vantera Solutions

Munich, Germany | 2014-2017

- # Developed backend services for internal enterprise applications
- # Implemented unit and integration tests to ensure code quality
- # Collaborated with frontend team to define API contracts
- # Participated in agile sprint planning and code reviews

Technologies: Java, Spring, MySQL, Git

EDUCATION

Master of Science in Computer Science

Technical University of Munich — 2013
