

Willem de Groot

Senior DevOps / Site Reliability Engineer

Amsterdam, Netherlands
c008.596@example.test
+00 000 542 785

PROFILE

Senior DevOps/SRE engineer with 8 years of experience designing and operating scalable cloud infrastructure. Specialized in Kubernetes orchestration, infrastructure as code with Terraform, and AWS cloud architecture. Passionate about reliability, automation, and building resilient systems that support rapid product growth.

SKILLS

Kubernetes · Terraform · AWS · Docker · CI/CD · Prometheus · Grafana · Python · Linux Administration · Ansible · Helm · GitOps

WORK EXPERIENCE

Senior Site Reliability Engineer — Northgate Digital

Amsterdam, Netherlands | 2021-Present

- # Lead the design and maintenance of multi-region Kubernetes clusters on AWS EKS
- # Define infrastructure as code standards using Terraform across engineering teams
- # Establish SLOs and error budgets for critical customer-facing services
- # Mentor junior DevOps engineers and conduct architecture reviews
- # Drive incident response process improvements and post-mortem culture

Technologies: Kubernetes, Terraform, AWS, Prometheus, Grafana, Helm

DevOps Engineer — Canalworks BV

Amsterdam, Netherlands | 2018-2021

- # Migrated on-premise workloads to AWS using containerized deployments
- # Built CI/CD pipelines with Jenkins and GitLab CI for microservices
- # Automated infrastructure provisioning with Terraform and Ansible
- # Implemented centralized logging and monitoring stack for production environments

Technologies: AWS, Docker, Jenkins, Terraform, ELK Stack

Junior Systems Engineer — Delta Cloud Solutions

Rotterdam, Netherlands | 2016-2018

- # Maintained Linux server infrastructure and network configurations
- # Assisted in deploying and monitoring internal applications
- # Supported migration of legacy systems to virtualized environments

Technologies: Linux, Bash, VMware, Nagios

EDUCATION

MSc in Computer Science

Delft University of Technology — 2016
