PROFILE

Senior Product Manager with 9 years of experience driving product strategy, growth, and data-informed decision-making across SaaS and marketplace platforms. Skilled at leading cross-functional teams through discovery, experimentation, and scaled delivery, with a strong track record of using SQL and A/B testing to inform roadmap decisions and improve user outcomes.

SKILLS

Product Strategy · SQL · A/B Testing · Roadmapping · Stakeholder Management · User Research · Agile/Scrum · Data Analysis · Growth Strategy · Figma

WORK EXPERIENCE

Senior Product Manager — Norvantis Digital

Paris, France | 2021-Present

- # Define and own product strategy for the core subscription platform serving over 500,000 users
- # Lead quarterly roadmap planning in collaboration with engineering, design, and marketing teams
- # Design and analyze A/B tests to optimize onboarding flows and reduce churn
- # Write SQL queries to extract and analyze product usage data for decision-making
- # Mentor two junior product managers and facilitate sprint planning sessions

Technologies: SQL, Amplitude, Jira, Figma, Optimizely

Product Manager — Bellune Tech

Paris, France | 2018-2021

- # Managed the product lifecycle for a B2B marketplace feature set from ideation to launch
- # Conducted user interviews and synthesized findings into actionable product requirements
- # Collaborated with data analysts to design experiments and interpret A/B test results
- # Partnered with engineering leads to prioritize backlog based on business impact
- # Presented product performance metrics to executive stakeholders quarterly

Technologies: SQL, Mixpanel, Jira, Confluence

Associate Product Manager — Cassian Ventures

Paris, France | 2015-2018

- # Supported senior PMs in gathering requirements and writing user stories
- # Analyzed customer feedback and usage data to identify improvement opportunities
- # Assisted in coordinating cross-functional launches for new feature releases
- # Tracked KPIs and prepared reporting dashboards for leadership review

Technologies: SQL, Excel, Google Analytics, Trello
