

Lukas Brandner

Lead AI/ML Engineer

Munich, Germany

c027.658@example.test

+00 000 964 291

PROFILE

Lead AI/ML Engineer with 10 years of experience designing and deploying machine learning systems at scale. Specializes in agentic workflow orchestration with LangGraph, MLOps pipeline design, and cloud-native ML infrastructure on GCP. Proven track record leading engineering teams from prototype to production while mentoring junior engineers and driving technical strategy.

SKILLS

Python · LangGraph · MLOps · GCP · Kubernetes · TensorFlow · PyTorch · CI/CD · Docker · Terraform · LLM Fine-tuning · Vertex AI

WORK EXPERIENCE

Lead AI/ML Engineer — Nordholz Analytics

Munich, Germany | 2021-Present

- # Lead a team of 6 ML engineers building agentic AI systems using LangGraph and LangChain
- # Define MLOps strategy including CI/CD pipelines for model training, validation, and deployment on GCP
- # Architect scalable inference infrastructure using Vertex AI and Kubernetes
- # Collaborate with product stakeholders to translate business requirements into ML solutions
- # Mentor junior and mid-level engineers on best practices in production ML systems

Technologies: Python, LangGraph, GCP, Vertex AI, Kubernetes, Terraform

Senior Machine Learning Engineer — Baumgart Data Systems

Munich, Germany | 2018-2021

- # Developed and maintained NLP models for document classification and entity extraction
- # Built automated retraining pipelines integrated with GCP Cloud Composer and BigQuery
- # Implemented monitoring and alerting for model drift and performance degradation
- # Collaborated cross-functionally with data engineering to improve feature pipelines

Technologies: Python, TensorFlow, GCP, BigQuery, Airflow

Machine Learning Engineer — Vellman Technologies

Munich, Germany | 2015-2018

- # Built recommendation models for e-commerce clients using collaborative filtering techniques
- # Deployed ML models as REST APIs using Flask and Docker
- # Conducted exploratory data analysis and feature engineering for tabular datasets
- # Participated in code reviews and agile sprint planning

Technologies: Python, Scikit-learn, Flask, Docker, SQL

EDUCATION

Master of Science in Computer Science, Machine Learning Specialization

Ludwig Maximilian University of Munich — 2015
