

Marc Vidal Serra

Senior Backend Engineer

Barcelona, Spain
c001.552@example.test
+00 000 223 112

PROFILE

Senior Backend Engineer with 7 years of experience designing and building scalable server-side systems and APIs. Strong background in Python, relational databases, and containerized deployments. Comfortable leading technical decisions, mentoring junior engineers, and collaborating cross-functionally to deliver reliable, maintainable software.

SKILLS

Python · PostgreSQL · Docker · FastAPI · Django · Redis · Kubernetes · RESTful API design · Git · AWS · Celery

WORK EXPERIENCE

Senior Backend Engineer — Nordvia Tech

Barcelona, Spain | 2021-Present

- # Lead development of core backend services handling high-throughput transaction processing
- # Design and optimize PostgreSQL schemas and queries for performance at scale
- # Own containerization strategy using Docker and orchestration with Kubernetes
- # Mentor mid-level and junior engineers through code reviews and pairing sessions
- # Collaborate with product and frontend teams to define API contracts

Technologies: Python, FastAPI, PostgreSQL, Docker, Kubernetes, AWS

Backend Engineer — Cataluna Software Solutions

Barcelona, Spain | 2018-2021

- # Developed and maintained RESTful APIs using Django and Django REST Framework
- # Migrated legacy monolithic services into modular microservices
- # Implemented caching layers with Redis to reduce database load
- # Wrote automated tests and participated in CI/CD pipeline improvements

Technologies: Python, Django, PostgreSQL, Redis, Docker, Jenkins

Junior Software Developer — Delta Informatica

Barcelona, Spain | 2017-2018

- # Built internal tools and scripts to automate data processing tasks
- # Assisted senior engineers in maintaining backend services
- # Fixed bugs and implemented small features in existing Python applications

Technologies: Python, SQL, Git

EDUCATION

Bachelor's Degree in Computer Science

Universitat Politècnica de Catalunya (UPC) — 2017
