

Marc Ferrer Solà

Full-Stack Engineer | React, Node.js & TypeScript

Valencia, Spain
c004.292@example.test
+00 000 761 918

PROFILE

Full-stack engineer with 5 years of experience building web applications using React, Node.js, and TypeScript. Comfortable working across the stack, from designing REST APIs to implementing responsive frontend interfaces. Focused on writing maintainable code and collaborating closely with product and design teams.

SKILLS

React · Node.js · TypeScript · JavaScript · PostgreSQL · Express · Docker · GraphQL · Git · CSS/SASS · AWS

WORK EXPERIENCE

Full-Stack Engineer — Naranja Digital Solutions

Valencia, Spain | 2022-Present

- # Develop and maintain customer-facing web applications using React and TypeScript
- # Design and implement REST APIs with Node.js and Express
- # Collaborate with product managers to translate requirements into technical solutions
- # Write unit and integration tests to ensure code quality
- # Participate in code reviews and mentor junior developers

Technologies: React, TypeScript, Node.js, Express, PostgreSQL, Docker

Frontend Developer — CiutatTech Labs

Valencia, Spain | 2020-2022

- # Built reusable UI components using React and Redux
- # Integrated frontend applications with backend REST APIs
- # Improved page load performance through code splitting and lazy loading
- # Worked closely with UX designers to implement responsive layouts

Technologies: React, JavaScript, Redux, CSS, REST APIs

Junior Web Developer — Alberes Software

Barcelona, Spain | 2019-2020

- # Assisted in developing internal tools using Node.js and Express
- # Fixed bugs and implemented small features in existing codebases
- # Wrote documentation for internal APIs
- # Supported QA team during testing cycles

Technologies: Node.js, JavaScript, Express, MySQL

EDUCATION

Bachelor's Degree in Computer Science

Universitat Politècnica de Catalunya (UPC) — 2019
