PROFILE

Junior Frontend Engineer with 2 years of experience building responsive web applications using React and TypeScript. Passionate about clean code, component-driven development, and continuously learning modern frontend tooling. Comfortable working in agile teams and collaborating closely with designers and backend engineers.

SKILLS

React · TypeScript · Vite · JavaScript (ES6+) · HTML5 · CSS3 · Redux · Git · REST APIs · Jest · Tailwind CSS

WORK EXPERIENCE

Frontend Developer — Nortware Digital

Lisbon, Portugal | 2023-Present

- # Develop and maintain React components using TypeScript for internal dashboard applications
- # Migrated legacy build setup to Vite, improving local development build times
- # Collaborate with UI/UX designers to implement responsive layouts from Figma prototypes
- # Write unit tests with Jest to ensure component reliability
- # Participate in daily stand-ups and sprint planning within an agile team

Technologies: React, TypeScript, Vite, Redux, Jest, Tailwind CSS

Junior Web Developer — Pixelforge Studio

Lisbon, Portugal | 2022-2023

- # Built and styled landing pages using HTML, CSS, and JavaScript for client websites
- # Assisted senior developers in converting static designs into interactive React components
- # Fixed cross-browser compatibility issues and improved page load performance
- # Used Git for version control and participated in code reviews

Technologies: React, JavaScript, HTML5, CSS3, Git

EDUCATION

Bachelor's Degree in Computer Science and Engineering

Instituto Superior Técnico — 2022
