PROFILE

Data Engineer with 5 years of experience building and maintaining scalable data pipelines on GCP. Skilled in Python, SQL, and Airflow orchestration, with a strong focus on data quality and reliable ETL processes for analytics teams.

SKILLS

Python · Airflow · SQL · GCP · BigQuery · Docker · Terraform · dbt · Kafka · Git

WORK EXPERIENCE

Data Engineer — Nexbyte Solutions

Warsaw, Poland | 2022-Present

Design and maintain ETL pipelines using Airflow and Python for ingesting data from multiple sources

Optimize BigQuery datasets and SQL queries to improve reporting performance

Collaborate with analytics team to define data models and ensure data quality

Migrate legacy on-premise batch jobs to GCP-based cloud infrastructure

Technologies: Python, Airflow, GCP, BigQuery, SQL, Docker

Junior Data Engineer — Cloudmill Analytics

Warsaw, Poland | 2020-2022

Built and scheduled data ingestion scripts in Python for internal reporting systems

Assisted senior engineers in developing Airflow DAGs for daily data processing

Wrote SQL queries to support ad-hoc business analysis requests

Monitored pipeline failures and performed basic troubleshooting

Technologies: Python, SQL, Airflow, PostgreSQL

Data Analyst Intern — Vistula Data Labs

Warsaw, Poland | 2019-2020

Supported data cleaning and preparation tasks using Python and Excel

Created basic dashboards for internal stakeholders

Assisted in documenting data sources and transformation logic

Technologies: Python, SQL, Excel

EDUCATION

Bachelor of Science in Computer Science

Warsaw University of Technology — 2019
