

Willem de Groot

Senior DevOps / Site Reliability Engineer

Amsterdam, Netherlands
c008.541@example.test
+00 000 788 457

PROFILE

Senior DevOps/SRE engineer with 8 years of experience designing and operating scalable cloud infrastructure. Specialized in Kubernetes orchestration, Infrastructure as Code with Terraform, and AWS cloud architecture. Strong background in CI/CD automation, observability, and improving system reliability across distributed environments.

SKILLS

Kubernetes · Terraform · AWS · Docker · CI/CD · Prometheus · Grafana · Python · Ansible · Linux Administration · GitOps

WORK EXPERIENCE

Senior Site Reliability Engineer — NordCloud Solutions

Amsterdam, Netherlands | 2021-Present

- # Lead the design and maintenance of Kubernetes clusters supporting multi-tenant production workloads
- # Define and enforce Terraform module standards for AWS infrastructure provisioning
- # Drive incident response processes and improve system observability using Prometheus and Grafana
- # Mentor junior engineers on cloud-native best practices and infrastructure automation
- # Collaborate with development teams to optimize deployment pipelines and reduce release cycle time

Technologies: Kubernetes, Terraform, AWS, Prometheus, Grafana, Helm

DevOps Engineer — Delta Systems B.V.

Rotterdam, Netherlands | 2018-2021

- # Migrated legacy on-premise applications to AWS using containerized deployments
- # Built and maintained CI/CD pipelines with Jenkins and GitLab CI
- # Automated infrastructure provisioning using Terraform and Ansible
- # Implemented monitoring and alerting solutions to improve system uptime
- # Supported production troubleshooting and capacity planning

Technologies: AWS, Terraform, Docker, Jenkins, Ansible

Junior Systems Engineer — BrightWave Technologies

Utrecht, Netherlands | 2016-2018

- # Assisted in maintaining Linux server infrastructure for internal applications
- # Wrote automation scripts to streamline routine operational tasks
- # Participated in on-call rotations supporting production systems
- # Contributed to documentation of deployment and configuration procedures

Technologies: Linux, Bash, Python, AWS

EDUCATION

Master of Science in Computer Science

Delft University of Technology — 2016
