

Ananya Krishnan

Data Scientist | Machine Learning & Predictive Analytics

Bengaluru, India

c014.186@example.test

+00 000 961 980

PROFILE

Data Scientist with 4 years of experience building machine learning models and data pipelines for e-commerce and fintech applications. Skilled in Python-based analytics, statistical modeling, and translating business problems into data-driven solutions. Strong collaborator with cross-functional product and engineering teams.

SKILLS

Python · Machine Learning · Pandas · Scikit-learn · SQL · NumPy · Data Visualization · Feature Engineering · Statistics · Tableau

WORK EXPERIENCE

Data Scientist — Vertex Analytics Solutions

Bengaluru, India | 2022-Present

- # Develop and deploy machine learning models for customer churn prediction and demand forecasting
- # Build ETL pipelines using Python and SQL to process large transactional datasets
- # Collaborate with product managers to define metrics and evaluate model performance
- # Present analytical findings and recommendations to stakeholders through dashboards

Technologies: Python, Pandas, Scikit-learn, SQL, Airflow, Tableau

Junior Data Analyst — Nimbus Data Labs

Bengaluru, India | 2021-2022

- # Performed exploratory data analysis to identify trends in customer transaction data
- # Assisted senior data scientists in building classification models for fraud detection
- # Created automated reporting scripts to reduce manual reporting time
- # Maintained data quality checks across ingestion pipelines

Technologies: Python, Pandas, NumPy, Excel, MySQL

Data Analyst Intern — Coral Insight Technologies

Bengaluru, India | 2020-2021

- # Cleaned and preprocessed datasets for internal analytics projects
- # Supported development of basic regression models under supervision
- # Prepared visualizations to communicate findings to team leads

Technologies: Python, Pandas, Matplotlib, Excel

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Indian Institute of Technology (IIT) Bombay — 2020
