+00 000 284 882

PROFILE

Detail-oriented QA Automation Engineer with 5 years of experience designing and maintaining automated test suites for web and API applications. Skilled in Python-based Selenium frameworks and integrating automated testing into CI/CD pipelines to improve release quality and speed.

SKILLS

Selenium · Python · CI/CD · Pytest · Jenkins · API Testing · Git · Docker · Test Case Design · SQL

WORK EXPERIENCE

QA Automation Engineer — Savannah Tech Solutions

Nairobi, Kenya | 2022-Present

- # Design and maintain Selenium-based automated test scripts using Python for web applications
- # Integrate automated test suites into Jenkins CI/CD pipelines to enable continuous testing
- # Collaborate with developers to identify and reproduce defects during sprint cycles
- # Conduct API testing using Postman and Python requests library
- # Mentor junior QA interns on automation best practices

Technologies: Selenium, Python, Jenkins, Postman, Docker, Git

Junior QA Engineer — Nairobi Digital Systems

Nairobi, Kenya | 2020-2022

- # Executed manual and automated regression tests for e-commerce platform releases
- # Wrote test cases and maintained test documentation in TestRail
- # Assisted in setting up initial Selenium automation framework using Python
- # Reported and tracked bugs using Jira, collaborating with development team on fixes

Technologies: Selenium, Python, Jira, TestRail, MySQL

QA Intern — Equator Software Labs

Nairobi, Kenya | 2019-2020

- # Performed manual testing on web application modules following test plans
- # Logged defects and verified fixes across multiple test cycles
- # Supported senior QA staff in preparing test data and environment setup

Technologies: Selenium, Excel, Jira

EDUCATION

Bachelor of Science in Computer Science

University of Nairobi — 2019
