

Marc Ferrer Soler

Senior Backend Engineer

Barcelona, Spain
c001.250@example.test
+00 000 936 965

PROFILE

Senior Backend Engineer with 7 years of experience designing and maintaining scalable server-side systems. Skilled in Python, relational databases, and containerized deployments. Experienced in leading small engineering teams and collaborating cross-functionally to deliver reliable, maintainable services.

SKILLS

Python · PostgreSQL · Docker · Django · REST APIs · Kubernetes · Redis · Git · CI/CD · Linux

WORK EXPERIENCE

Senior Backend Engineer — NexaData Systems

Barcelona, Spain | 2021-Present

- # Design and maintain microservices handling high-volume transactional data
- # Lead technical decisions for backend architecture and database schema design
- # Mentor junior engineers and conduct code reviews
- # Optimize PostgreSQL queries and indexing strategies for performance
- # Coordinate deployment pipelines using Docker and Kubernetes

Technologies: Python, PostgreSQL, Docker, Kubernetes, FastAPI, Redis

Backend Engineer — Bluepine Software

Barcelona, Spain | 2018-2021

- # Developed RESTful APIs for internal and client-facing applications
- # Implemented data models and migrations in PostgreSQL
- # Containerized services using Docker for consistent deployment environments
- # Collaborated with frontend team to define API contracts
- # Participated in on-call rotation for production incident response

Technologies: Python, Django, PostgreSQL, Docker, Celery

Junior Backend Developer — Arcadia Web Solutions

Barcelona, Spain | 2017-2018

- # Assisted in building and maintaining web application backends
- # Wrote unit tests to improve code coverage
- # Fixed bugs and implemented small feature requests under senior guidance

Technologies: Python, Flask, MySQL

EDUCATION

Bachelor's Degree in Computer Science

Universitat Politècnica de Catalunya (UPC) — 2017
