

Marta Vidal Roig

AI/ML Engineer specializing in LLM Applications and Agentic Systems

Barcelona, Spain
c002.623@example.test
+00 000 641 188

PROFILE

AI/ML Engineer with 4 years of experience building production-grade machine learning systems and LLM-powered applications. Skilled in designing agentic workflows with LangChain and LangGraph, deploying scalable pipelines on GCP, and collaborating with cross-functional teams to deliver reliable AI solutions. Passionate about applying NLP and generative AI to solve real business problems.

SKILLS

Python · LangChain · LangGraph · GCP · TensorFlow · Docker · SQL · Vertex AI · REST APIs · Prompt Engineering · Kubernetes

WORK EXPERIENCE

Machine Learning Engineer — NexaData Solutions

Barcelona, Spain | 2022-Present

- # Design and maintain LLM-based agents using LangChain and LangGraph for customer support automation
- # Deploy and monitor ML models on Google Cloud Platform using Vertex AI and Cloud Run
- # Collaborate with product teams to define requirements for AI-driven features
- # Build data pipelines for training and evaluating NLP models
- # Optimize inference latency and cost for production LLM applications

Technologies: Python, LangChain, LangGraph, GCP, Vertex AI, Docker

Junior Data Scientist — Innovatech Labs

Barcelona, Spain | 2021-2022

- # Developed and validated predictive models for internal analytics use cases
- # Assisted in building ETL pipelines using Python and SQL
- # Supported senior engineers in deploying models to cloud infrastructure
- # Conducted exploratory data analysis and prepared reports for stakeholders

Technologies: Python, SQL, Pandas, Scikit-learn, GCP

EDUCATION

Master's Degree in Data Science and Artificial Intelligence

Universitat Politècnica de Catalunya (UPC) — 2021
