

Elena Martínez Ruiz

Senior Data Scientist

Madrid, Spain
c003.546@example.test
+00 000 168 248

PROFILE

Senior Data Scientist with 8 years of experience building and deploying machine learning models for business-critical applications. Skilled in end-to-end ML pipeline development, from data extraction and feature engineering to model deployment and monitoring. Strong background in SQL, Python, and cloud-based ML infrastructure, with experience mentoring junior data scientists and collaborating with cross-functional teams.

SKILLS

Python · Machine Learning · SQL · Deep Learning · Scikit-learn · TensorFlow · Data Visualization · AWS · Docker · Feature Engineering · Statistical Modeling

WORK EXPERIENCE

Senior Data Scientist — NubeTech Analytics

Madrid, Spain | 2021-Present

- # Lead development of predictive models for customer churn and demand forecasting
- # Design and maintain ML pipelines using Python and Airflow
- # Collaborate with engineering teams to deploy models into production using Docker and AWS SageMaker
- # Mentor junior data scientists on best practices in model development and evaluation
- # Present findings and recommendations to senior stakeholders

Technologies: Python, SQL, AWS, Docker, Airflow, Scikit-learn

Data Scientist — Vertice Data Solutions

Madrid, Spain | 2018-2021

- # Developed machine learning models for fraud detection and risk scoring
- # Built ETL pipelines to consolidate data from multiple internal systems
- # Performed exploratory data analysis and statistical testing to support product decisions
- # Optimized SQL queries for large-scale data extraction and reporting

Technologies: Python, SQL, Pandas, TensorFlow, Tableau

Data Analyst — InsightWave Consulting

Madrid, Spain | 2016-2018

- # Analyzed client datasets to identify trends and business opportunities
- # Built dashboards and reports using SQL and visualization tools
- # Assisted senior analysts in developing early-stage predictive models

Technologies: SQL, Python, Excel, Power BI

EDUCATION

Master's Degree in Data Science and Artificial Intelligence

Universidad Politécnica de Madrid — 2016
