PROFILE

Senior Data Engineer with 8 years of experience designing and maintaining scalable data pipelines and warehousing solutions. Skilled in building ETL/ELT workflows, optimizing SQL-based data models, and orchestrating batch processes with Airflow. Experienced working with cross-functional teams to deliver reliable data infrastructure for analytics and machine learning use cases.

SKILLS

Python · SQL · Airflow · Apache Spark · AWS · Docker · Kafka · Data Modeling · PostgreSQL · dbt · Git · Kubernetes

WORK EXPERIENCE

Senior Data Engineer — NubeData Solutions

Buenos Aires, Argentina | 2021-Present

- # Design and maintain ETL/ELT pipelines processing over 500GB of daily data using Airflow and Spark
- # Lead migration of on-premise data warehouse to AWS Redshift
- # Collaborate with data science team to productionize ML feature pipelines
- # Mentor junior data engineers on best practices for pipeline design and testing
- # Implement data quality checks and monitoring using Great Expectations

Technologies: Python, SQL, Airflow, Apache Spark, AWS Redshift, Docker

Data Engineer — Vertice Analytics

Buenos Aires, Argentina | 2018-2021

- # Built and maintained batch data pipelines for financial reporting systems
- # Developed reusable Python modules for data ingestion from third-party APIs
- # Optimized SQL queries and database indexes to improve report generation times
- # Automated workflow scheduling using Apache Airflow
- # Supported migration from legacy cron jobs to Airflow DAGs

Technologies: Python, SQL, Airflow, PostgreSQL, Kafka

Junior Data Engineer — InfoRed Tecnología

Buenos Aires, Argentina | 2016-2018

- # Assisted in developing data extraction scripts for internal reporting tools
- # Maintained and monitored nightly ETL jobs
- # Wrote SQL queries to support ad-hoc business analysis requests
- # Documented data pipeline processes and troubleshooting procedures

Technologies: Python, SQL, MySQL, Bash

EDUCATION

Licenciatura en Ciencias de la Computación in Computer Science

Universidad de Buenos Aires — 2016
