PROFILE

Lead AI/ML Engineer with 10 years of experience designing and deploying scalable machine learning systems and generative AI applications. Skilled in building production-grade MLOps pipelines on GCP and orchestrating multi-agent LLM workflows using LangGraph. Proven track record leading cross-functional engineering teams to deliver reliable, maintainable AI solutions.

SKILLS

Python · LangGraph · MLOps · GCP · TensorFlow · Kubernetes · Docker · CI/CD · LLM Orchestration · Airflow · SQL · Terraform

WORK EXPERIENCE

Lead AI/ML Engineer — Nordlicht AI Solutions

Munich, Germany | 2021-Present

- # Lead a team of 6 ML engineers building generative AI products for enterprise clients
- # Architect multi-agent LLM pipelines using LangGraph for automated document processing
- # Design and maintain MLOps infrastructure on GCP including CI/CD for model deployment
- # Define technical roadmap and mentor junior engineers on best practices
- # Collaborate with product managers to translate business requirements into ML solutions

Technologies: Python, LangGraph, GCP, Vertex AI, Kubernetes, Docker

Senior Machine Learning Engineer — Bavaria Data Systems

Munich, Germany | 2018-2021

- # Developed NLP models for customer support automation, reducing manual ticket handling
- # Built and maintained feature pipelines and model monitoring dashboards
- # Migrated legacy ML workflows to GCP-based infrastructure
- # Implemented automated retraining pipelines using Airflow and Kubeflow

Technologies: Python, TensorFlow, GCP, Airflow, Kubeflow

Machine Learning Engineer — Alpine Analytics GmbH

Munich, Germany | 2015-2018

- # Built predictive models for demand forecasting in retail clients
- # Developed data preprocessing and feature engineering pipelines
- # Collaborated with data engineers to productionize models using REST APIs
- # Conducted model evaluation and performance tuning

Technologies: Python, Scikit-learn, SQL, Docker

EDUCATION

M.Sc. in Computer Science
